

## BOARD POLICIES

### CLAIMS

At the Workers' Compensation Board meeting of August 11, 1983, the following policy was agreed upon and adopted:

No. 31 Medical Information to Canada Pension Plan Authorities

Where a person claims with both the Board and Canada Pension, information from one Agency to the other may be desirable.

Board Policy No. 5 provides that a file may be disclosed only to the claimant or the employer or any representative of either solely for the purpose of pursuing or opposing an appeal. However, to assist Canada Pension as much as possible, the Medical Consultant will provide, on request, a resume of the medical information and findings on the file to Canada Pension Plan authorities.
