POLICY STATEMENT

Application of the Policies of the Board

The purpose of the policies of the board is to provide direction and guidance to board staff for interpreting the Act, to ensure consistency in the application of the provisions of the Act, and to ensure that the objectives of the Act are being met.

It is recognized that the policies of the board cannot be tailored to meet every situation which may arise in applying the provisions of the Act, and therefore are not meant to fully replace the exercise of judgement by board staff.

The exercise of good judgement is an essential component of decision making which must be carried out when the policies of the board do not provide direction in a given situation, or when the situation is unique or was otherwise unanticipated when the policy was established.

In these circumstances, appropriate solutions based on sound reasoning that is consistent with the intent and objectives of the Act and the policies of the board are required, and further policy development will also be considered as appropriate.

Public Availability of the Policies of the Board

All board policies are accessible on the board's website.

Board policies are also available in the public register of the board, and copies will be provided at a reasonable cost.
