Safety Culture CONTEST

Entry form

The Yukon Workers' Compensation Health and Safety Board believes that positive attitudes towards health and safety can best be developed by educating our children and youth. The *Safety Culture Contest* is a chance for Yukon students to come up with creative ways to show what physical and psychological safety means—at home, school work or play.

The theme this year is “promoting respectful and kind behaviour at home, school, work and play.”

Personal information collected will only be used to contact the winning students and will be destroyed when the contest is over.

I have read and I understand the terms for participating in the *Safety Culture Contest* and I agree to them.

I assign to the Yukon Workers' Compensation Health and Safety Board the right to own and use the entry for this contest for promotional purposes.
